	(D)	An	swers	s any one of the fo	ollowin	ng:			6
		(i)	_	-	_	absorption throug	sh the g	gastrointestinal tract	U
		(**)		the factors affecti	_				
		(11)	Disc	cuss the methods	used for	or bioassay.			
4.	(A)	Ch	oose	the most appropri	iate an	swer (any three):			3
		(i)	Pha	rmacodynamics ir	ivolve	the study of follow	ving EX	KCEPT	3
			(a)	adverse effects o	of drug	S			
			• •	absorption and m		•			
			(c)	mechanisms of d	rug ac	tion			
		(ii)	"Af	finity" is a measu	re of _	•			
			(a)	how tightly a dru	ıg bind	s to plasma protein	ıs		
			(b)	how tightly a dru	ıg bind	ls to a receptor			
			(c)	inhibitory poteno	cy of a	drug			
		(iii)	Ifar	n agonist can prod	uce ma	aximal effects and l	has higl	n efficacy it is called	
			(a)	partial agonist	(b)	complete agonist	(c)	agonist-antagonist	
		(iv)	-	is a second me	essenge	er of G-protein-co	upled re	eceptor.	
			(a)	IP3	(b)	cAMP	(c)	cGMP	
		(v)		is a beta recep	tor ant	agonist.			
			(a)	Lasix	(b)	Losartan	(c)	Proprenolol	
		(vi)	Sul	ohonamide affects	S	synthesis.			
		` '		PABA		peptidoglycan	(c)	protein	
	(B)	De	fine a	any one of the foll	lowing	•			2
				Placebo	2				
				Antagonist					

5

	(C)	Write a note on any one of the following:	4
		(i) Proton pump inhibitors	
		(ii) Mechanism of action of drugs mediated by receptors	
	(D)	Answer any two of the following:	6
		(i) Discuss the mode of action of Penicillin.	
		(ii) How does a beta blocker lower blood pressure?	
	((iii) Write a brief note on adverse reactions of non-steroid anti-inflammatory drugs.	
	((iv) Discuss the action of any two drugs acting as enzyme inhibitors.	
5.	(A)	Write a brief note on any one of the following:	3
		(i) RQ	
		(ii) PDCAAS	
	(B)	Answer any one of the following:	3
		(i) Justify: "Obesity can be controlled by diet".	
		(ii) Suggest how the carbohydrate intake should be modulated in conditions of	
		(i) Glucosuria and (ii) Helicobacter pylori infection.	
	(C)	Briefly answer any one of the following:	3
		(i) Write a note on Therapeutic Index.	
		(ii) Differentiate between bioequivalence and bioavailability.	
	(D)	Give brief answers to any one:	3
	` /	(i) Explain the mechanism by which Amlodipine elicits its effect.	_
		(ii) With the aid of suitable examples describe the use of drugs that act via	
		nonrecentor mechanism	

6

- (E) State True or False (any three):
 - (i) RDA refers to Relative Dietary Allowance.
 - (ii) Fats should be avoided totally in the normal diet.
 - (ii) Bioavailability is 100% for a drug administered via topical route.
 - (iv) Omeprazole is a NSAID.
 - (v) Acetylation of the drug increases absorption of a drug.
 - (vi) Acidic drugs are absorbed in the intestine.
